Looking to the Future: Learning from the Past

Middle Atlantic Region
Student Meet 2005

Creating St. Peter's: Architectural Treasurers of the Vatican

Michelangelo's original (1560) study model of the dome of St. Peter's Basilica in Rome will be on exhibit at the Pope John Paul II Cultural Center, Washington DC. The exhibit includes more than 150 original architectural drawings and other artifacts, which are on loan from the Vatican.

This is a fascinating exhibition from many points of view – architecture, engineering, physics, art, history, religion, mathematics – that appeals to a wide audience. Other pieces in the exhibit include an oak winch, one of the 40 that were used to move the obelisk in St. Peter's square and other heavy weights in the basilica.

The Cultural Center is an amazing modern structure, which contrasts beautifully with the Shrine across the street, which will also be available to study and tour.

Are you staying over on Friday and/or Saturday nights? If so, where?

________________________________________

Some of the things on the agenda for Student Meet Business Meeting include:

- Student Competition at Convention - Where do we want to go with it?
- What can CSI offer Students and their schools? How can we best interact?

Be thinking about the above, and let us know of anything you would like to discuss at the Student Meet Business Meeting?
